EXPLANATION OF TERMS AND SYMBOLS

The term “WARNING!” indicates instructions regarding personal safety. If the instructions are not followed the result may be bodily injury or death.

The term “CAUTION!” indicates instructions regarding possible damage to physical equipment. If these instructions are not followed, it may result in damage to the equipment that may not be covered under the warranty.

The term “IMPORTANT!” indicates instructions or information that are vital to the successful completion of the procedure.

The term “NOTE” is used to indicate additional useful information.

⚠️ The intent of the lightning flash with arrowhead symbol in a triangle is to alert the user to the presence of un-insulated “dangerous” voltage within the product’s enclosure that may be of sufficient magnitude to constitute a risk of electric shock to humans.

⚠️ The intent of the exclamation point within an equilateral triangle is to alert the user to the presence of important safety, and operating and maintenance instructions in this manual.

IMPORTANT SAFETY INSTRUCTIONS

Refer to Safety Information and Regulatory Statements Q-SYS NV-32-H 4K60 Network Video for important information.

**Introduction**

The Q-SYS NV-32-H is a network video endpoint native to the Q-SYS Ecosystem, serving as a multi-stream, software-configurable HDMI encoder/decoder that enables network-based video distribution. Optimized for the meeting room, the Q-SYS NV-32-H delivers the right balance of high quality (supporting resolutions up to 4K60 4:4:4), low-latency and network-efficient video distribution across a standard gigabit infrastructure.

**Powering the Q-SYS NV-32-H**

**WARNING!:** To avoid risk of electric shock, this equipment must only be connected to a supply mains with protective earth when using class I power supply.

The Q-SYS NV-32-H has a flexible power solution that allows the integrator to choose to use either a 48VDC power supply or a 802.3bt PoE++ injector. Please note that 802.3bt is a high-power over Ethernet standard that allows for up to 71W of power delivered to end-point devices over standard Ethernet cabling. Equipment meeting the 802.3bt standard is required to power the Q-SYS NV-32-H. The Q-SYS NV-32-H will not work using PoE or PoE+ (802.3af or 802.3at) equipment.

With either power solution please make sure to follow the safety instructions for the specific power supply or injector chosen. For details on the 48vDC or PoE++ power supply requirements please see the product specifications at the end of this document.

**Installation**

**Ventilation**

Minimum open space of 6 inches measured from the back of the Q-SYS NV-32-H.

**NOTE:** In order to provide adequate dissipation of heat, keep the space directly to the rear of the Q-SYS NV-32-H free of obstacles.

**Select the Installation Configuration**

Choose one of the following configuration options:

A. One Q-SYS NV-32-H 19-inch Rack (Left or Right Mount)
B. One Q-SYS NV-32-H 19-inch Rack (Center Mount)
C. Two Q-SYS NV-32-H’s 19-inch Rack
D. One Q-SYS NV-32-H Half Rack
E. Under Table or on Wall
A. One Q-SYS NV-32-H 19-inch Rack (Left or Right Mount)

1. (x1)
2. (x1)
3. (x1)
4. (x5)
5. (x1)

B. One Q-SYS NV-32-H 19-inch Rack (Center Mount)

1. (x1)
2. (x2)
3. (x4)
4. (x2)
C. Two Q-SYS NV-32-H's 19-inch Rack

1. (x2)
2. (x2)
3. (x2)
4. (x6)
5. (x1)
6. (x6)

D. One Q-SYS NV-32-H Half Rack

1. (x1)
2. (x2)
3. (x6)
E. Under Table or on Wall

1. (x1)

2. (x2)

3. (x6)

4. (x4) Not supplied – use appropriate screws for mounting surface.

5. Mounting Surface

Rack Mounting Options

All Configurations

Using the examples shown in mounting options A through E, you can mount any of the Q-SYS NV-32-H configurations. The example at the lower right can be flipped to accommodate a single Q-SYS NV-32-H on the left side.

1. Equipment Rack (not supplied)

2. (2) Rack Ear Spacer

3. (2) Rack Ear) OR

4. (4) Rack-Mounting Screws and Washers (not supplied)
Features

Front Panel

1. **Power LED** – illuminates blue when the Q-SYS NV-32-H is powered on.
2. **ID LED** – LED blinks when placed into ID Mode via ID Button or Q-SYS Configurator Software.

Rear Panel

1. **External Power Input 48 VDC 1.5 A** – Auxiliary power, 48 VDC, 1.5A, 2-pin Euro connector.
2. **LAN A/ PoE ++** – connection for Q-LAN network, 802.3bt power, RJ-45 connector.
3. **LAN B** – RJ-45 connector, not active at initial release.
4. **USB Type A** – USB type A host connectors (blue connector is for USB 3.0 connection). 1.0 A, total, is available for all four Type-A USBs.
5. **GPIO Out**
   - **12 VDC Output** – 12 V, 0.2 A output used for GPIO signals.
   - **GPIO Outputs** – 3 outputs, open collector (24 V, 0.2 A maximum) with pull up to +3.3 V, (pins 1-3 equal pins 1-3 in the Q-SYS Designer GPIO Output component).
   - **Ground** – Use this ground reference for 12 VDC and GPIO outputs.
6. **GPIO Inputs / RS-232**
   - **GPIO Inputs** – 2 inputs, 0-24 V analog input, or contact closure, pins 1-2 equal pins 1-2 in the Q-SYS Designer GPIO Input component).
   - **RS-232** – Transmit and Receive.
   - **Ground** – Use this ground reference for GPIO inputs and RS-232.
7. **Analog Audio Output** – 3.5 mm connector unbalanced stereo line output.
8. **Analog Audio Input** – 3.5 mm connector unbalanced stereo mic/line input.
9. **USB B** – USB Type B Device connector for web conference integration.
10. **HDMI Inputs** – HDMI 2.0 Input with support for HDCP 2.2 and HDCP 1.4.
11. **HDMI Output** – HDMI 2.0 Output with support for HDCP 2.2 and HDCP 1.4.
12. **Factory Reset** – Use a paperclip, or similar tool, to press and hold the reset button for 10 seconds to reset the NV-32-H to factory values.

### Specifications

#### Video I/O
- **HDMI 2.0 inputs**: Three HDMI inputs capable of receiving source input video formats up to 4K60 4:4:4
- **HDMI 2.0 outputs**: Two HDMI outputs capable of scaling and outputting video formats up to 4K60 4:4:4
- **Scaler**: Each HDMI output features a robust, polymorphic 4K60 4:4:4 scaler than can accommodate the most challenging resolution and frame rate conversions.

#### Audio I/O
- **HDMI inputs**: 8-channel PCM audio, Q-SYS routable
- **HDMI outputs**: 8-channel PCM audio, Q-SYS routable
- **Analog audio input**
  - Signal-to-noise: 3.5 mm unbalanced stereo mic/line input Q-SYS routable, 80 dB, THD+N: 0.009% @ 0 dB, Input frequency response: 20 Hz to 20 kHz +0.05% / -0.5%, Input Impedance (unbalanced): 5 kΩ nominal
- **Analog audio output**
  - Signal-to-noise: 3.5 mm unbalanced stereo line output Q-SYS routable, 90 dB, THD+N: 0.0167% @ 0 dB, Output frequency response: 20 Hz to 20 kHz +0.2% / -0.5%

#### Other Connectors
- **External power supply**: 48 VDC Nominal, 1.5 A on 2-pin Euro connector
- **GPIO**: Euro connector for extension of Q-SYS Control to third-party devices, user configurable
- **LAN A**: Gigabit LAN connection for interface with Q-LAN; PoE++
  - PoE++ (Power over Ethernet) specification/wattage
  - Conforms to IEEE 802.3bt Type 4 specification, PD class 8 (71W at PD, 90W at PSE)
- **LAN B**: No functionality at initial release
- **RS-232**: Three-pin Euro connector for extension of Q-SYS Control to third-party devices, user configurable
- **USB Type A**: USB type A host connectors (blue connector is for USB 3.0 connection). 1.0 A total is available for all four Type-A USBs.

#### General
- **Dimensions**: 8.66 in x 11.28 in x 1.72 in
- **Weight**: 4.0 lb (1.81 kg)
- **Mounting options**: Rack- (1 RU half-rack width), surface-, table-, or wall-mountable. All mounting hardware is included with the exception of surface-specific screws and washers.
- **Regulatory compliance**: CE, FCC Part 15 Class B, RoHS

#### Environmental
- **Ambient operating temperature range**: 0-50° C
- **Humidity**: 5 to 85% non-condensing
- **Storage temperature**: -20 to 70° C
