

## End-of-Life Product Rebate Program Cinema Products

QSC is offering a \$75.00 rebate to customers who replace a discontinued product (see list for qualifying models) with a current model.

*“Due to the difficulty in obtaining parts for very old amplifiers and the cost of labor; it may not be practical to service amplifiers that experience severe failures. QSC will provide assistance with minor failures on a parts-available basis.*”

*When replacing Cinema amplifiers, it is important to determine if analog crossover modules are in use. For example, the XC-1 may be installed in MX 1500a amplifiers for bi-amp screen channels and the replacement DCA 1622 would need the XC-3 module. Contact QSC for details about the appropriate replacements for discontinued modules.”*

The details and conditions of the rebate are as follows:

- Customers must purchase the replacement product from an authorized QSC Cinema Dealer
- Customers must provide proof of purchase including serial number, place or purchase, and a copy of the purchase receipt.
- Customers must complete the Rebate Request Form completely and acknowledge the program terms with their written signature.
- Customers must submit their Rebate Request within 30 days of new equipment purchase.
- Customers may qualify for an additional \$25.00 rebate by returning the old unit to QSC for eWaste recycling.
- Units not returned to QSC will no longer be eligible for QSC Factory Service\*
- Offer may be discontinued at any time at QSC's discretion

*\*Product may continue to be repaired/serviced at the customer's expense at a qualified service center of their choosing*
