

# QSC + Microsoft Teams

## solutions overview guide

### Large Room Audio Accessory: In-Ceiling Loudspeakers

Scale the Microsoft Teams Room experience to rooms of all sizes and types to provide a consistent user experience for every participant in the room. The large meeting room audio bundle helps overcome the challenges of some specialty rooms by providing the right infrastructure (Q-SYS) and the right peripherals (Q-SYS network switch, QSC amplifier and loudspeakers, along with the Sennheiser TeamConnect Ceiling 2 microphone.)

**Room Size:** Large  
**Seat Count:** 10-12

- In-ceiling loudspeakers are ideal for flush mount ceilings with standard framing.
- Certified audio settings for Microsoft Teams Rooms deliver a premium Teams experience in any room.
- Advanced AEC (acoustic echo cancellation) delivers echo free far-end audio even in the most challenging rooms
- Adjustable noise reduction allows the far end to receive clear audio while minimizing distracting sounds (HVAC, keyboard typing, etc)
- Sennheiser TeamConnect Ceiling 2 auto dynamic beamforming technology enables flexible room configurations and captures speech from anywhere in the room
