

QSC + Microsoft Teams

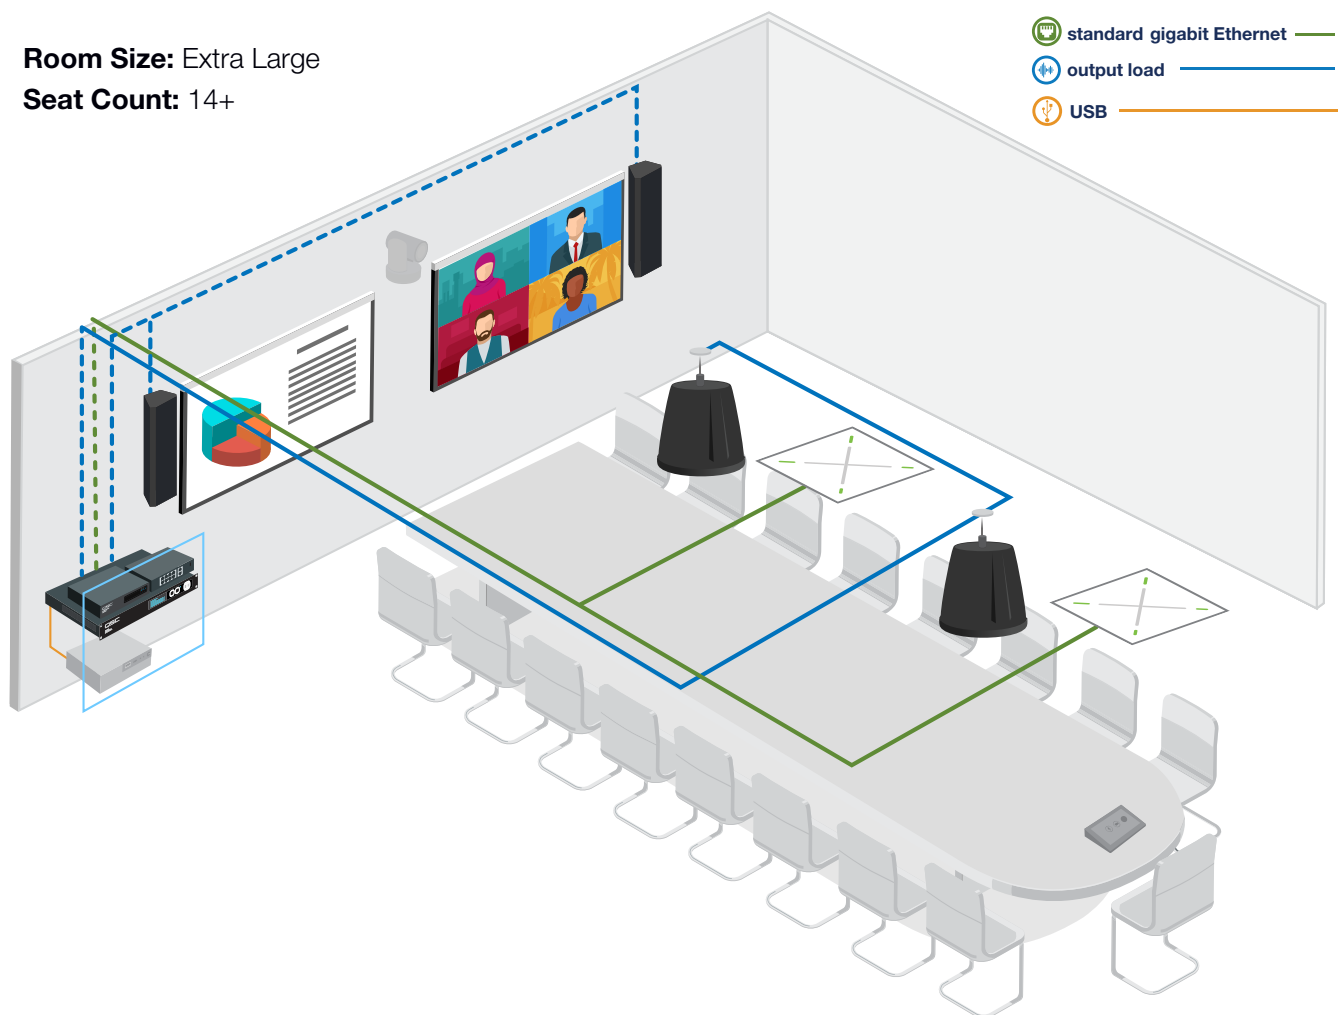

solutions overview guide

Extra Large Room Audio Accessory: Directional Audio with Pendant Loudspeakers

Scale the Microsoft Teams Room experience to rooms of all sizes and types to provide a consistent user experience for every participant in the room. The extra large meeting room audio bundle helps overcome the challenges of some specialty rooms by providing the right infrastructure (Q-SYS) and the right peripherals (Q-SYS network switch, QSC amplifier and loudspeakers, along with the Sennheiser TeamConnect Ceiling 2 microphone.)

Room Size: Extra Large

Seat Count: 14+

- Pendant loudspeakers are ideal for rooms with open architecture ceilings.
- Surface column-mount loudspeakers offer directional audio for a more natural videoconferencing experience when mounted beside a display.
- Certified audio settings for Microsoft Teams Rooms deliver a premium Teams experience in any room.
- Advanced configurable AEC (acoustic echo cancellation) delivers echo free far-end audio even in the most challenging rooms.
- Adjustable noise reduction allows the far end to receive clear audio while minimizing distracting sounds like HVAC, keyboard typing, etc.
- Sennheiser TeamConnect Ceiling 2 auto dynamic beamforming technology enables flexible room configurations and captures speech from anywhere in the room.

| Product | Quantity | |
